Bullet Points on Price Forecast of Important Crops – July 2021

1. Paddy-Grade-A and Paddy-Common could trade in price ranges of Rs. 1900-2200 and Rs. 1650-1900 per quintal during the month of July, 2021. There is a high demand for Indian coarse rice from Nepal, Burma, Vietnam, and other countries.
2. Maize may trade at a price range of Rs. 1550-1800 per quintal in month of July, 2021. Decreased and very low arrivals in major markets will continue to support the maize market.
3. Greengram may trade at a price range of Rs. 6000 - 6100 per quintal in July, 2021 due to weak demand in domestic market.
4. Blackgram may trade at a price range of Rs. 6200-6500 per quintal in month of July 2021 as the demand is weak, while supply side is almost balanced with increasing flow of import.
5. Redgram may trade at a price range of Rs. 6200 - 6400 per quintal in July, 2021. Demand is yet to improve in the domestic markets and any spike in Tur market is unlikely.
6. Groundnut may trade at a price range of Rs. 5500-6000 per quintal in July 2021, due to good peanut oil demand from China.
7. Soyabean may trade at a price range of Rs. 5500-6000 per quintal in July, 2021 month due to strong soya meal exports from India.
8. Castor may trade at a price range of Rs. 4400 - 4700 per quintal in July, 2021.
9. Cotton may trade at a price range of Rs. 6500-7000 per quintal in July, 2021 due to good demand from domestic cotton mills and overseas market.
10. Chilli may trade at a price range of Rs. 11500-13500 per quintal in July, 2021. Red chilli buyers are inactive in spot market due to corona virus lockdown and shortage of labour and also export contracts are pending for delivery to importing countries.
11. Turmeric may trade at a price range of Rs. 6500 – 6800 per quintal in July, 2021. Continued good domestic demand along with upcountry demand is supporting the prices.
