Bullet Points on Price Forecast of Important Crops – April 2022

1. Paddy-Grade-A and Paddy-Common could trade in price ranges of Rs. 1570-1790 and Rs. 1280-1490 per quintal during the month of April, 2022 due to less export demand for the rice.
2. Maize may trade at a price range of Rs. 1850-1980 per quintal in month of April, 2022 as poultry demand seems to be strong in domestic as well as international markets.
3. Black gram may trade at a price range of Rs. 6000-6150 per quintal in month of April, 2022 with the expectation of higher import volume.
4. Redgram could trade at a price range of Rs. 6400 - 6600 per quintal in April, 2022 with a normal trade expectation as supply side seems at comfortable level in the coming weeks.
5. Bengalgram may trade at a price range of Rs. 4600 - 4800 per quintal in April, 2022.
6. Groundnut may trade at a price range of Rs. 5500-6500 per quintal in April 2022.
7. Soyabean may trade at a price range of Rs. 6500-7500 per quintal in April, 2022 due to low demand from crushers and weak soymeal export.
8. Castor trade at a price range of Rs. 6500 - 6700 per quintal in April, 2022.
9. Cotton may trade at a price range of Rs. 9500-10500 per quintal in April, 2022 as all India daily arrivals are decreasing rapidly leading for tight supply, helping prices stay strong in the Indian market.
10. Chilli may trade at a price range of Rs. 16500-18500 per quintal in April, 2022. Because the unseasonal rainfall during December and January damaged chilli quality, stockiest want to sell good quality cold storage stocks at further high prices.
11. Turmeric may trade at a price range of Rs. 6600 – 6800 per quintal in April, 2022.
