**Bullet Points on Price Forecast of Important Crops – October 2022**

1. Paddy-Grade-A Paddy-Common may trade in price ranges of Rs. 1980-2250 and Rs. 1840-2040 per quintal during the month of October, 2022 due to increasing export demand for the Indian rice.
2. Maize may trade at a price range of Rs. 1960-2270 per quintal in month of October, 2022 because of the strong domestic and export demand from feed as well as starch industry.
3. Redgram may trade at a price range of Rs. 7400 - 7600 per quintal in October, 2022. Price rise is likely to be capped due to continuous influx from South African countries.
4. Black gram may trade at a price range of Rs. 6150-6300 per quintal in month of October, 2022. Market prices are likely to remain slightly weak due to arrivals of inferior quality of new crop which is fetching at lower prices.
5. Greengram may trade at a price range of Rs. 6200 - 6400 per quintal in October, 2022.
6. Groundnut may trade at a price range of Rs. 5500-6000 per quintal in October 2022.
7. Soyabean may trade at a price range of Rs. 5000-5500 per quintal in October, 2022 due to weak demand from crushers and high ending stock ahead of harvesting crop.
8. Castor may trade at a price range of Rs. 6300 - 6600 per quintal in October, 2022.
9. Cotton may trade at a price range of Rs. 9500-10500 per quintal in October, 2022 and the crop is likely to get affected in the current season due to adverse weather in the major cotton-producing countries.
10. Chilli is expected to trade at a price range of Rs. 14500-16000 per quintal in October, 2022 due to good export demand in coming week which may push up the prices in bullish sentiment.
11. Turmeric may trade at a price range of Rs. 5900 – 6100 per quintal in October, 2022.
