Bullet Points on Price Forecast of Important Crops – September 2022

1. Paddy-Grade-A and Paddy-Common could trade in a range of Rs. 1960-2230 per quintal could trade in a range of Rs. 1800-2010 per quintal during the month of September, 2022 as demand for the Indian rice is increasing.
2. Maize may trade at a price range of Rs. 1940-2200 per quintal in month of September, 2022 because of the strong domestic and export demand from feed as well as starch industry, and decrease in flow of supplies in major spot markets.
3. Redgram may trade at a price range of Rs. 7500 - 7700 per quintal in September, 2022.
4. Greengram may trade at a price range of Rs. 6200 - 6500 per quintal in September, 2022 as new arrivals are fetching lower prices due to higher moisture content.
5. Black gram may trade at a price range of Rs. 6180-6340 per quintal in month of September, 2022 because of higher moisture level in new crop arrivals.
6. Groundnut may trade at a price range of Rs. 5500-6000 per quintal in September 2022.
7. Soyabean may trade at a price range of Rs. 5400-5700 per quintal in September, 2022 as soymeal exports went down due to over-priced Indian soymeal in the global markets.
8. Castor trade at a price range of Rs. 6400 - 6700 per quintal in September, 2022.
9. Cotton may trade at a price range of Rs. 9500-10500 per quintal in September, 2022 as the crop is likely to get affected in the 2022-23 season due to adverse weather in the major cotton-producing countries.
10. Chilli may trade at a price range of Rs. 14500-16000 per quintal in September, 2022 with continuing exporters demand (to supply/export to Bangladesh, Indonesia and Malaysia) at Guntur market.
11. Turmeric may trade at a price range of Rs. 6100 – 6400 per quintal in September, 2022.
